Group No.: ____Y____   Project No.: ___G_____

Project Name: Website Browsing Management System

_____

PHASE - II
CONCEPTUAL DATABASE DESIGN

I.   **CHANGES MADE**:

1. When searched for a website, if it is not available, browser must display an error message.
2. When the browser is to be closed while running on multiple tabs, browser should ask the user whether to close all tabs or not.
3. When the browser is closed while on multiple tabs, when opened next time, the browser should ask whether to restore the previous tabs or not.
4. Browser must allow the user to make any desired page as the browser's homepage.
5. Browser must allow the user to save any desired page to desktop.
